Christophe Gevers by axis71

Introducing a line of iconic lightings by visionary Belgian architect and designer Christophe Gevers. Discover a universe that is both organic and modernist while utterly coherent. Appreciate the ingenuity and the wit of creations that have left an indelible mark on Belgian design.

CG71 arco

1971

As much, through his creations, the designer Christophe Gevers wanted to magnify the present moment by transcending the past and the future, he also succeeded in unifying the male and female archetypes in an original, unique creation, reserved for exclusive customers. : the CG71 arco born in 1971. A slender metal arc takes its source in a rectangular concrete base, and unfolds in a minimalist momentum that supports two adjustable light sources. When the best of the “industrial” spirit meets creative genius

“We can direct the light where we want”.

Carlo Nason

The Italian designer Carlo Nason was born in 1935 in Murano, into a family of expert glassmakers.

His father, Vincenzo Nason, ran the famous glass company Nason/Moretti and opened a second glass company under the name Vincenzo Nason & C in 1941.

From an early age, the young Nason was trained in the art of glassblowing, learning both the properties of the material and the craft techniques used in glass moulding and decoration.

The first objects designed by Nason date from 1959 and are part of a collection of blow-moulded vases produced by V Nason & C. Today, they are housed in the Corning Museum of Glass in Corning, New York.

Driven by his passion for design, particularly for cleanliness and geometry of form, he decided in the 1960s to distance himself from the family business, which mainly specialised in highly traditional and ornate decorative objects. Nason shifted his focus to the design of glass lighting in a modernist language.

Nason intended to produce his first models himself in small series, but soon his spirit of experimentation and innovation attracted the attention of Murano glass manufacturer A. V. Mazzega, and the company invited him to collaborate on new collections. The partnership lasted from 1965 until the 1980s and resulted in a range of iconic lighting designs still in demand today. Alongside the collaboration with A. V. Mazzega, Nason also created designs for other leading Murano glassworks companies.

He continued to create designs in the 1980s and 1990s, and also worked as a consultant for Casinos Austria, and later as a photographer. His work has been exhibited over the decades in numerous museums and art and design galleries in Paris, Milan and New York.

Ala Series 1969

I designed Ala at the end of the 60s, it was produced for the first time between 69 and 70. It took its name from a gesture that everyone can do by crossing their hands to imitate the movement of birds wings or when, as in the Chinese Puppet game, we project on the wall the shadow of a bird in flight. A cylinder that contains the light source, two disks folded and joined together. All the magic is there. There are no hinges or bearings, everything happens through the geometric game of balanced elements. Ala has an infinite number of positions and consequent shapes.

In the light of Alberto Nason

Alberto Nason born in Venice in 1972. After finishing his studies he took three years experience in a graphic design studio Option One, In London. He then attended The Istituto Europeo di Design in Milan obtaining a diploma in 1996 in industrial design.

In 2001 he created a place called " first laboratory " in which the designer dedicated himself to technical new search of working of the glass. In 2001 collaborated with the European Institute of Design and his thesis with the Prof. Micheli.

Grand Siècle Big Oxford Blue (On demand)

Grand Siècle reinvents the codes of the classical chandelier. This playful pendant lamp is an objet d'art in and of itself that will gracefully catch the attention while spreading a soft ambient light.

Venice

Alberto Nason

Italian designer Alberto Nason offers a radiant homage to the city he grew up in with this unique creation. Venice combines the eccentricity of the form with the ancestral simplicity of materials. Its delicate hand-blown glass ornaments composition will enhance your décor while spreading a smooth and welcoming light.

In the light of Stéphane Lebrun

Born in Belgium in 1973, his training in cabinet making and architecture enables him to build himself the furniture pieces and projects he designs. This unique approach has opened the doors of prestigious places such as the Brussels Museum of Modern Art, the Manneken-Pis and the Belgium Museum of Embroidery.

The designer Stéphane Lebrun drew his inspiration for the design of the bamboo structures in his Nao Mai line from his travel in Asia.

S71 Wood

Stéphane Lebrun

S71 Table medium

S71's watchword Classics with a twist. The series offers a darling play on textures, and materials – metal, wood – as well as a subtle renewal of classical shapes. An assortment of floor, table and wall lights available in white, brown, black and custom colors.

S71 Wall

S71 Suspension

S71 big & XXL

Memory

Stéphane Lebrun

Let yourself be seduced by our Memory line. A sober square lightshade available in every desired color letting escape a soft golden glow... The Memory collection offers a variety of harmonious and sober lighting solutions that will fit every home.

Vino Table

The Vino possesses a matt sleek finish and soft curves reminding of a bottle of grand cru wine... This single spotlight and its 360° pivot provides a practical directional lighting to focus the light where you need it the most.

Charles Floor

Charles' revamped lantern look will instantly give an inviting picturesque vibe to your interior as well as your exterior. This refreshing polyvalent line includes a XXL floor light, a wall light and a pendant light, all available in varied colors.
